

Interstitial Cystitis/Painful Bladder Syndrome

By Frederic P. Miller

Alphascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - Interstitial cystitis/painful bladder syndrome , is a urinary bladder disease of unknown cause characterised by pain associated with urination , urinary frequency , urgency, and pressure in the bladder and/or pelvis. Pain that worsened with a certain food or drink and/or worsened with bladder filling and/or improved with urination was reported by 97% of patients. Patients may also experience nocturia, pelvic floor dysfunction and tension , pain with sexual intercourse, and discomfort and difficulty driving, traveling or working. Research has claimed that the quality of life of some IC patients is equivalent to those with end stage renal failure. 100 pp. Englisch.

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.
